PICK-UPS

The San Francisco club of the Pacific Coast League has been signing for the services of John F. Kerr of the Chicago White Sox, formerly shortstop of the Chicago Browns. The Sox asked waivers for him some time ago in an effort to send him to the Sox, but the Washington Senators refused to let him leave the American League if the Senators secured Kerr, they would no doubt send him to one of their minor-league "farm" Sox of Francisco is willing that he stay with some major-league outfit, but it is to be seen to the minors they want his services. During 1935 Kerr batted for only .258, which is a very poor average but gauding at his fielding mark explains why the Pacific Coast club could use him. The Sox have plenty of hitting strength and are now trying to fill the one weak spot in their infield, second base.

NEW HONORS FOR A BASEBALL MANAGER

While some may question why the winning of the American League pennant and world championship baseball series "rendered" the most outstanding service to Philadelphia during the year 1935, everyone who has followed the career of Connie Mack, manager of the Philadelphia Athletics, will not doubt be pleased over the fact that he has been given the Edward W. Bok award.

In past years the award has been given to artists, scientists, educators or philanthropists, as that Manager Mack becomes the first person to receive it for service done in the sporting world. It is also pleasing to Manager Mack's friends to know that Mr. Bok assisted in picking out the veteran baseball manager for the honor, and when Charles K. Fox, former district attorney, said in presenting the award, that Manager Mack's years of effort had been "devoted to the honesty, decency and efficiency of the national game," he named those characteristics which have marked manager Mack's entire baseball career and which have not only won for him seven American and four world series championships, but have made him one of the most respected men in professional baseball.

SCOTT WORKS HARD FOR SHARKEY FIGHT

Miami, Fla., Seven rounds of sparring with five different partners comprised the bulk of Bill Scott's training session yesterday for the heavyweight championship fight February 27 with Jack Sharkey. The Briton successfully took on Ben Hunt, Bill Middlehand, Jack Demaree, Jack Remond and Char Hearn. He weighed 212 when the day's work got under way. William F. Carey, president of the Madison Square Garden corporation, which is putting on the fight, divided his time between Scott's camp and that of Sharkey at Miami Beach, watching their progress.

Scott gave a world champion ship touch to the coming fight by announcing he had retained "Wild Bill" Lyons, of Texas as his body guard.

It's a real joy to get back to the ordinary kind of a man. You're an old man," Mrs. Gregg finished, with much emphasis. I want a man who should have sense about the things he's meant to have sense about, when it comes to keeping house I like him real helpful, the way the Lord planned to have him;

DUTIES OF CURLERS

The following thoughts on curling as taken from the Weyburn Herald, with curls curling in the curl in many a local home—especially this week. The writer outlines the duties of the various members of a rink.

The Lead—A lovely person This is a very lovely person who throws the first pair of rocks. He is supposed to thank the Deity once a day in his prayer that he even curls, let alone being allowed to play at bonspiel time. He always addresses the skip as "sir" and the third man as "Mr." This lead person is expected to see that the four pairs of rocks belonging to his rink are on the ice and cleaned five minutes before the game starts. He must do no less than 75 per cent. of the sweeping. He is expected to keep the skip fully supplied with cigarettes. His curling must be perfect or he is blamed for the loss of all games in which his rink suffers defeat. He may tell the second man what he thinks about the skip, but no one else. After many years he becomes a skip. If he survives the savagery of his associates.

The Second Player—More Man This person is but one degree removed from the lead. He is expected to do 10 per cent. of the sweeping. He also, as the lead, is expected to keep the skip supplied with cigarettes and the third man with matches. He must on all occasions get the rock he is to pick out, otherwise he is blamed for loss of games.

The Third Player—A Gentleman This gentleman is in a class by himself alone. He could skip the rink, he does the lead, and he is far better than the skip doing the job now. He assumes an air of superiority over all men and women outside of mere condescension to his skip. He does the remaining 10 per cent. of the sweeping. He holds the broom for the skip to shoot, and invariably tells the skip that he should have been told that the third man, had chosen not to be the one he, the skip, has just named.

The Skip—The Ideal Curler. He is a gentlemanly sportsman who gets up the rink, often sacrificing valuable time to the interest and entertainment of three other curlers who wish to play in the bonspiel. He does none of the sweeping, he merely holds the broom and his own temper while the rink is drawn the next. He must take out four rocks with one shot and then lay on the button and generally make himself useful, knowing that if he wins his rink gets the credit and if he loses he loses the blame. He must have the patience of Job and the aggressiveness of Napoleon, must never complain or he will be chased as a poor sport.

LANGDON

The Langdon Women's Institute luncheon concert was played to a packed house in the I.O.O.F. hall Friday night, February 21st. The three play entitled "Look what you have done to Mother" went over with a bang, and accepted by the audience with the greatest of approval, with everyone taking part in the play filling their parts with ability and some excellent acting, the audience was kept in good humor and many were laughing. The gist of the play was the task of the younger generation taking it upon their hands to live up to the older ones to their way of thinking. This was accomplished in wonderfully short time and even went to the extreme of showing the younger set the truth of the old saying, "There is no fool like an old fool" and that the older people are not so far behind the times as you might think in many ways. This play is quite in keeping with present conditions of every day life, but bunched together it makes good ground in which to assume an audience. The adults taking part in the play were as follows: Mrs. G. Buntan, Mrs. Jessup, Mrs. Forester, Mrs. V. M. Day, Mrs. G. Whitley and Mrs. M. Day, the younger set, daughters of the members of the sewing circle, and who were organized to pop up in their mothers were the following: Patricia Barron, Winnie Day, Theodore Lowe, Zella McMillan, Victoria Alcock and Vic Barron. Miss Clara De Long of Calgary, the well known entertainer, gave several numbers. Miss De Long is not a stranger to the Langdon people, having entertained and taken part in different concerts in the past at Langdon. Mrs. De Long was an outstanding feature of the programme with her readings and piano accompaniment. The numbers called forth great applause. Tit of this quality is certainly appreciated by the people of Langdon, and Mrs. De Long has certainly won the people's heart in this Town and district and we hope her visits will be more often in future.

Mrs. S. Scott, as Morris Vinesdale, kept the ladies in the upper with a reading of a Jewish Monologue. This was well given and received great applause. recitation by Leonard Lewis, entitled, "The Rise of the Plains," received hearty approval. Miss McMillan, poor little school boy with his pants all torn and rage, was there to show the mothers just what a hard thing it is for a lively boy to keep from having patches on his pants. Those Plains, was the title of the recitation. Phyllis Craig, in her recitation, entitled, "The Farmers Friend" brought forth many a laugh, even if the price of wheat was mentioned. Mr. Avery and his orchestra supplied the music during the performance. The dancing after the dance after the play. Lunch was served about midnight, after which dancing was resumed.

Mr. John Brander is the second owner of one of the New Ford Town sedans in Langdon and must have bought from the local Ford dealer, Frank Stiles.

Members of the Dalemead U. F. W. A. held their regular monthly meeting in the Community Hall when Mrs. S. B. Thompson gave an interesting report of the Annual U. F. W. A. Convention. After the meeting of the U. F. W. A. the annual meeting of the hall reporters was held, there being an attendance of about 30. Mr. Ray Newton who has been president of the hall reporters for the past year, occupied the chair in a most capable manner, and much important business was covered by the meeting. Mr. F. Dalton and Mr. M. M. King being elected the two new directors for the year.

A large number of Dalemead young people participated in the Langdon Carnival held there last Friday evening. Langdon is to be most highly commended for their work, and for initiating this Carnival of theirs.

THE WHEAT SITUATION

Winnipeg Free Press—Says Milling in London, a publication devoted to the milling industry, in its issue of Feb. 1st.

"There would be no lack of demand for the mills would be very much better if the Pool and the Federal Farm Board had not put a price on their wheat, which is admittedly of good quality this season, that the Orient cannot pay, and that Europe is scarcely better able to afford. In fact it is the greatest concern of wheat that the world has ever witnessed."

A certain amount of feeling is revealed in this article. But what is the occasion or justification for it? There has certainly been no "corner" in wheat in Great Britain. A "corner" means that necessary supplies have been kept off the market forcing excessive prices. The market reports from Great Britain have certainly recorded neither scarcity of wheat in Great Britain nor high prices for the wheat that is available. It has been a good season for the millers.

The reason for the temper thus shown is supplied by the quoting with approval by Milling of an observation credited to C. F. Haines, European manager of the North-Western Miller, that "Argentine producers and shippers owe a great debt of gratitude to the Canadian West. Pool and the American Farm Board for so considerately holding back their supplies of wheat thus enabling Argentinians to sell at a profitable price, or at any rate at a far higher price than would have been the case had Canada and the United States been taking a hand in the game."

This writer started out to say that the prices received by the Argentinians have been profitable; able; but the picking of his conclusion compelled him to modify this to an assertion that the prices were higher than they would have been had United States and Canada wheat entered the market. This is obviously true; and it is the truth that annoys Milling and the milling trust. Wheat prices in the British market have been "starvation prices" this season, in the judgment of A. H. Hunt from whose "The Bread of Britain" we have taken timely quotation. These "starvation prices" would have dropped to the sub-zero if United States & Canadian grain had been added to the glut. It was the loss of this "glut" that is responsible for Milling's outburst.

It is of course, possible that the sequel may show that it was an error of judgment on the part of holders of Canadian and American grain not to have done this, taking what they could get and unloading the staggering losses that would have been the farmers and upon all business dependent upon farming—that is upon pretty nearly everybody in the West. In trying to get not a high price, not a firm price, but a price with a bare

MAY THE TRACKWAYS PROPOSITION BE SMOTHERED

Trackways Ltd. is back again, endeavoring to force the acceptance of their project upon the Alberta Legislature now in session, by presenting along with the bill, a petition signed by several thousand people.

The securing of such a large number of names demonstrates very much how interested are the promoters of this bill to serve the public at so much per trip.

These promoters are surely persistent in their efforts to force their proposition through the Legislature, but it is to be hoped that John C. Burdick, M. L. A. and his associates will again give these gentlemen to understand in no uncertain sound that the Government is quite capable and also willing to furnish highways that will give their citizens a reasonable service without any assistance from any private corporation that wishes to secure a monopoly right that has been long ago abandoned that is the collection of tolls.

It is not more private companies to serve the public that is required, but a greater extension when at all possible of Public Services. Surely the Government has had enough grief from railway monopolies in the famous Alberta Waterways, and Edmonton and Dawson Highways to be even increased in any other new fangled system of transportation, either for passengers or freight.

The upshot of two highway bills is simply unthinkable.

margin of profit for the grower, the holders of Canadian wheat, pool and private organizations, who have been aiming to save whole business structure in Western Canada from severe loss. There are a good many people just as deeply interested as the farmers in the success of the policy of restricted marketing who appear to have no realization of this fact. But they will find it out if success attends the efforts of the highly organized bear raids upon wheat.
